

## Highlights report

### Purpose

This Highlights report presents key results from the 2020 Working for Queensland survey, which was conducted from 2 September to 28 September 2020. Results reflect the views of respondents from your agency.

### Reporting framework

This report represents scores across two different types of metrics, **factors** and **indices**.

**Factors** in the survey combine data from multiple questions that correlate highly with the overall factor.

**Workplace climate indices** by contrast, simply group all climate questions within topics to which they generally relate.

# 12 How to interpret this report

## % Positive, neutral and negative scores

Across Working for Queensland (WfQ) reporting, most data is expressed as % positive, % neutral or % negative.

- % **positive** presents the proportion of respondents who expressed a positive opinion or assessment i.e. combining 'Strongly agree' and 'Agree' responses.
- % **neutral** presents the proportion of respondents who expressed a neutral opinion or assessment.
- % **negative** presents the proportion of respondents who expressed a negative opinion or assessment i.e. combining 'Strongly disagree' and 'Disagree' responses.

## Negatively worded questions

### What are negatively worded questions?

Negatively worded questions are those phrased in a negative way e.g. "Approval processes at my work are excessive".

### How are the negatively worded responses scored?

When responding to a negatively worded question, "Strongly disagree" and "Disagree" responses are classified as positive i.e. it is good that you disagree that approval processes at work are excessive (this means they are not excessive!). Therefore, the "Strongly disagree" and "Disagree" responses are combined to calculate the % positive score.

### What does this mean for interpreting the % positive score for negatively worded questions?

The % positive score combines the negative responses as they are the "preferred" responses to this question.

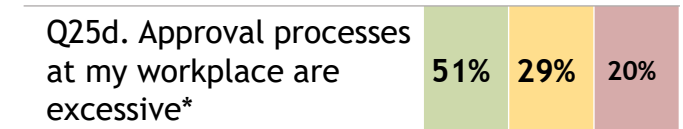

## EXAMPLE

In the image below the % positive score for "Approval processes at my work are excessive" is 51%. This result can be expressed by stating that:

**51% disagreed that "Approval processes at my work are excessive"**

OR

**51% felt that the "Approval processes at their work are not excessive"**

Conversely, the % negative score means that 20% of the employees perceive that the approval processes at their work are excessive.

## Interpreting the six point scale

Some questions ask respondents to indicate how regularly they experienced different workplace behaviours. Note that a number of these questions are negatively worded.

# 12 How to interpret this report

## Rounding

Results are rounded to whole numbers.  
Percentages may therefore not add up to 100%.

## Factor scores

Factor measures combine information from multiple survey questions that correlate highly with the overall factor. The factor scores are calculated as the sum of positive responses given to all questions within the factor, divided by the number of answers to all questions within the factor.

## Workplace climate index scores

Workplace climate indices have been created by grouping together questions within topics to which they generally relate. The climate index scores are calculated as the sum of positive responses given to all questions within the index, divided by the number of answers to all questions within the index.

## Number of respondents

The number of respondents for subpopulations (i.e. divisions, demographic groups) may not add up to the total number of respondents due to missing demographic or division information.

## % Change and division comparisons

Throughout this report, the % change figure and division comparisons are frequently reported. The % change score relates to differences between:

- the 2019 and 2020 % positive scores, or
- the 2020 agency and Qld public sector % scores.

The division comparisons relate to the comparisons of the % positive scores between the agency and other divisions.

## Definitions

The following definitions were used in the survey:

- **Your workgroup:** the group or team where you spend most of your time. If you are a manager, your workgroup is the people you manage.
- **Your workplace:** the place where you work, such as a hospital or office location as well as the places you visit as part of your work. Questions about your workplace concern the experiences you have in this environment.
- **Your organisation:** The government department, Health Service or Public Service Office you currently work for (e.g. The Department of Transport and Main Roads for staff employed in RoadTek, the Public Trustee for staff working for the Public Trustee, the Hospital and Health Service (HHS) you work for or the Department of Health).

- **Your immediate co-worker(s):** the person(s) in your agency you spend the majority of your time with.
- **Your manager/supervisor:** the person you usually report to.
- **Your senior manager:** the person your manager reports to.
- **Your customer(s):** the person(s) you provide advice or service to, whether internal or external to the Queensland public sector (e.g. students, clients, customers, stakeholders, patients, members of the community).
- **Your leader:** The person who sets the strategic direction for your organisation
- **Sexual harassment:** an unwelcome sexual advance, unwelcome request for sexual favours or other unwelcome conduct of a sexual nature which makes a person feel offended, humiliated or intimidated, and where that reaction is reasonable in the circumstances. Sexual harassment does not need to be deliberate or repeated to be illegal.
- **Bullying:** repeated and unreasonable behaviour directed towards a worker or group of workers that creates a risk to health and safety.
