

QFleet Services Guide

About QFleet

QFleet provides eligible Queensland Government agencies, councils, departments and approved government-funded organisations, safe, cost-effective, and low emission vehicle fleets.

Our experienced fleet consultants will work with you to advise the vehicles that may suit your operating conditions and budget. We provide practical advice on vehicle use, whole-of-life costs, fleet composition and how to move to low emission vehicles.

We provide:

- » fully maintained operating leases
- » fixed monthly lease rates inclusive of finance, maintenance, insurance, registration, roadside assistance and end-of-lease vehicle resale
- » standard, modified and special build vehicles
- » free access to Queensland Government's procurement arrangements (fuel cards, bulk fuel, telematics, EV charging infrastructure, tyres, vehicle resales, and driver training)
- » end-of-lease vehicle returns and sales managed through Manheim auctions across the state
- » dedicated fleet advice and operational support
- » online tools for fleet information, quoting, reporting and vehicle bookings.

Leasing benefits

-  Choose safe, fit-for-purpose vehicles that support service delivery
-  Control costs through fixed lease rates and included services
-  Make informed decisions using fleet data, reporting and expert advice
-  Improve vehicle use, driver safety and environmental performance.

Practical fleet advice

Our experienced fleet consultants will work with you to understand your operational needs and will:

- » provide you with vehicle options that may suit your operating conditions and budget
- » review fleet composition, vehicle use and replacement needs
- » balance service requirements with safety, cost and emissions considerations
- » use fleet systems and reports to support timely decisions.

Fully maintained leases with planned costs

A fully maintained operating lease combines the vehicle and many operating costs into one fixed rate for the lease term. When leasing from QFleet you can:

- » choose from a range of fit-for-purpose vehicle options
- » include many costs associated with acquiring, maintaining and selling the vehicle
- » forecast budgets more accurately with fixed lease rates
- » return the vehicle through a straightforward handover process; QFleet manages its sale at no extra cost, subject to the vehicle meeting return-condition requirements.

Diverse mix of fleet options

Our vehicle range supports varied services and operating environments across Queensland; our fleet options include:

- » passenger vehicles, SUVs and light commercial vehicles covering battery electric, plug-in hybrid, hybrid, petrol and diesel engines
- » special build vehicles, including wheelchair-accessible vans, buses, all-terrain vehicles and patient transport solutions.

Safe driving support

QFleet provides reliable vehicles with a minimum 5-star ANCAP safety rating where available.

We help you keep vehicles serviced and maintained and provide RACQ 24-hour roadside assistance for added support.

Online fleet management

QFleet's customer online systems and reporting tools, give you quick and easy access to:

- » manage your fleet, utilisation, maintenance and costs
- » request, compare and approve lease quotes
- » vehicle fringe benefits tax (FBT) data
- » vehicle-use data and shared-vehicle bookings
- » industry news, safety advice and fleet management resources.

Increased fleet capability

QFleet offers practical training for fleet managers and drivers:

- » Fleet management courses from beginner to advanced level.
- » Online driver safety training.

Reduced fleet emissions

QFleet can support your organisation to reduce its fleet emissions by:

- » offering a range of low and zero emission vehicles (electric, hybrid and plug-in hybrid) to meet a diverse range of operating needs
- » providing vehicle-emissions reporting
- » offering effective fleet management advice to reduce fleet emissions
- » monitoring and reviewing the maximum carbon dioxide (CO₂) thresholds for each vehicle segment offered to customers.
