

How to complete the retention and disposal schedule template

Queensland State Archives

A retention and disposal schedule is a legal document which authorises the destruction or transfer of public records. A schedule:

- describes the type of business a public authority performs
- identifies the records produced as a result of that business
- specifies how long each record must be kept.

A schedule is made up of the following sections:

- introduction
- table of contents
- body of schedule
- legacy records.

The retention and disposal schedule template is available on the [website](#).

How to complete the schedule template

The template is set to the standard required for submission to the State Archivist, so you don't need to change the font type and size.

Introduction

Below provides details about what information you need to complete in the introduction.
